

# GALACTIC FEDERATION OF UNCONDITIONAL LOVE – STARSEEDS – YAZHI & ANEEKA

REVELACIÓN CÓSMICA SEMILLAS ESTELARES

25 January 2021

Video URL: <https://youtu.be/jrYgWf7CjGE>

START OF VIDEO - LIVE WITH ROBERT

Robert.- All friends, hello and welcome once again to the Cosmic Revelation Starseeds channel, how are you guys, are you okay? Today's live you already know that I am a person a bit, well, quite "ironic" and the title is: "Galactic Federation of unconditional love"... of unconditional love and now we will see exactly if the Galactic Federation or some of its members (not all) feel true unconditional love for humanity, we will see it here.

And then I took 2 excerpts of 2 conversations, one that I had with Yazhí and another with Anéeka and a group of people who were with Anéeka and from all this and, well, I have put together this live show that is quite long by the way... that here depends on what time I can't speak. Well, I have also put in the community comment box of this channel "false flag notice" in (I think I remember) Nevada Las Vegas and it is warned precisely so that it does not occur... high possibility of false flag, detected, date ? between the 28th and 30th of this month(January) in Las Vegas, Nevada. I hope it is of your interest... also to say that I have had to cut a lot of things due to the "censorship" (because there is an incredible censorship) so that I will do it the safest in another live on Twitch. Well, there it goes, first I'm going to talk about the conversation I had with Yazhí... the title of the video is Galactic Federation of unconditional love for humanity, and Yazhí says:

*Yazhí.- If they were united, yes, united (humans) they are dangerous, that is why they separate them with nonsense, fighting for politics when in the end it doesn't matter, they neglect what does matter to fight each other for politics. As we have said so many times, YOU MUST UNITE, and create a true resistance where masses rebel and do not comply with the directives of the governments... "mass rebellion" is the key. I do not see them united, humans, as I do not see the mass media being taken to tell people everything; there has never been more separation than today...*

Robert.- This is important because if I get to the end of the video, what I plan to talk about, we will talk about the fact that there are proposals, proposals to form some kind of holographic society, but, of course, if humanity doesn't unite... what society would we be talking about right? Well I have to say that this conversation I had with Yazhí was before the video I made in Despejando Enigmas, a direct I did in the forest... it was before, that's why she talks about uniting. If they unite, they are dangerous... if they unite! Well, then, the question I asked Yazhí was: - how could people be encouraged to join together? and her answer:

*Yazhí.- You can't because that is imposing something on them and they will resist, believing that we are the invaders, because NOBODY can change another person and that means that we cannot change them either. I have told Gosia that they must realize that it is not our responsibility (I repeat: it is not our responsibility) only to do what we can, but, what happens next is not our responsibility...*

*The "Galactic Federation of Light" will do nothing because they are the Cabal behind everything, the ones who are causing everything that is seen on Earth today. At the stellar level Urmah and Taygeta are only "conspiracnoids" with little power (I repeat, at the stellar level) who cannot do much, as you cannot go and destroy things, or they will arrest you.*

*The same here, Taygeta will do what they can to the limit of their possibilities, but it won't be enough for long... it's the truth; It is not Taygeta's responsibility either, they help because they want to, but in the attempt they ended up falling into the same disappointment as Q-anon ...*

Robert.-And what you say is very important, but what I am going to say now, is repeated to me since I started contact (if I remember correctly in December 2017), the same thing is repeated:

*Yazhí.- I have told you ad nauseam that a species or group of intellectually superior species is controlling you... stop delegating your power to governments and saviours! They are the only ones who can save themselves (humans), they must save themselves. The people with whom I speak in person, normal street people (many do not know what I am) report to me that it is useless, nor will their family be able to change. So do what you can to save yourself, each one must decide how far they can help, and how they can help and they must understand that it is not their responsibility to save the world or other people... to help with what they can help, but if they don't see how, then, just to save themselves. This as soon as they see if there is no other soul that understands and follows them. The difference between really awake and asleep is increasing, those who follow Trump believe they are awake, for example, when it is only one more level in awakening. I share this because it is what I see with alarming clarity... Whether they say negative or not, I don't care, the truth is with me, it will depend on each person if what they want is placebos that give hopeful dopamine, "hopium " or if they wish or have the nerve to see the truth, no matter how ugly it may be.*

Robert.- Well, this would be the part of Yazhí and I have cut a lot off because the rest will be on Twitch... let's see what people around here say about what I just said: then it is important to join

together, unite, but as far as I see it by the very nature of the human being it is difficult... the nature of the human being considering that we are many races living this experience, in let's say a human body, this is what many people do not understand.

The Andromedan Federation manages the black and white cabal, we should continue their departure because they are regressive... yes, well, let's see if they are regressive or not, regressive or regressive because they are permissive... there are many ways of looking at them. From my point of view, they are regressive and why? Because they do not take into account what humanity wants being here in this life, being human is not taken into account and then they come out with speeches of karmas, super well argued rare stories, and to me personally (from my point of view) it seems that the only things up there are charlatans, according to which race eh, charlatans with many arguments, arguments that are always the same, now we will see some. So, another very important thing that I also said is that these channels, like Despejando Enigmas or the ones out there, are not channels that talk about politics, they are not political channels, this has to be very clear and the only thing that this has achieved is to distract us and that we do not go onto new topics, right? But you'll see what happens, you'll see... Well, and here says Anéeka.-

Anéeka.- As a consequence of all this political activity that has served as a "phenomenal distractor" we have not even made progress on new issues, also under the premise that people are only interested in what happens currently because they are all in survival mode. Also, first of all, I want to say that, in summary, and before going into why, we must return to what we were before all this that is happening worldwide, issues that are not political although this it is doubly controversial, because, I know that what matters most is waking people up to what is really happening or otherwise "you know"..., and on the other hand we cannot because of the censorship, so...

Robert.-... of course! What don't they do? you can't wake up people to what is really going through the censorship that there is, that is, you can't, you can't... so what do we do... what do we do? Well then she says:

Anéeka.-... so we don't see much point in sharing politics, they just end up discrediting us in one way or another...

Robert.- So the question would be: - what really matters? and Anéeka's answer says:

Anéeka.- It depends on the perspective, from my point of view I do see that what matters most is opening people's eyes about what is happening with the real agenda, but as you know, that is very difficult because of the censorship... But it's the only thing that really matters, because time is running out. So, as Yazhí says, we must all realize that it is not our place to fix the world because we cannot... That goes more than anything for us from here, if we could do more we would have already done it.

Robert.- So, of the people who were in this meeting, someone asked the following question: - the question is, what are you going to do now? What is your action plan? Answer:

Anéeka.- Just support from here and do things under the table as has always been done, at the same time realizing that we have a limit on what we can do and accept... that we also have our hands tied, accept that it is not up to us to throw everything on our shoulders and for us to say what is happening, what is happening today, they only label us as "negative and pessimistic." (I have had to remove many things from the conversation because, of course, as it says here, we are only labelled "negative and pessimistic") They have lied to all of us and we have fallen into their

*game, we help because we can help and because that's how we are, but if we can't do anything, what use are we here?*

Robert.- As I go on, what I can say is that, of course, as the days go by there is more information and things are seen more clearly and from another point of view, right?... it is true that we said one thing but, of course, I repeat, as the days go by, the information is updated, right? So here what it says about NESARA and GESARA, is that in the end it is again against... I repeat, what is NESARA / GESARA that in the end again is against the people and in favour of the banks. Because the end of NESARA / GESARA is to remove private property, that is the end, the resounding end, is that they are going to take everything away from you and they are going to spend it in electronic currency having control over people, one hundred percent control and above all you will not have any of your property.

Well, let's see what it says here (Robert reads from the chat): - *The decision to save our lives and freedom is always in ourselves...* correct! ... - *we can't expect someone else to do it...* exactly! don't wait, they will do everything possible to help you, but don't wait, they can't do it anyway... - encouragement, strength for everyone and this is the information that helps us understand... of course! We repeat again: it is humanity that has the strength of everything, to reverse everything that is happening, it is humans; if humanity does not unite due to x circumstances... it is so.

The problem is that like those above, the races that are above in the Federation, some know that humanity is never going to unite, because they take advantage of that, they take advantage... if humanity were to join, they have no choice but to give in to what humanity says! But since humanity is passive, passive and I see it here, I see it here and I always have to emphasize it: right now there are 1,104 people... 671 likes, what about the rest of the people? People are passive, it does not matter as long as some do the work for me and I am calm...

Well, yes, it is a way of looking at things, but as long as you are in a ready-made society, here you are trying to form a society, in which we are all united, but as I said in the video only at the beginning... this what Yazhí said.-

*Yazhí.- If they were united, yes, together humans are dangerous, that is why they separate them with nonsense fighting for politics when in the end it does not matter, they neglect what does matter to fight each other for politics. As we have said so many times, YOU MUST UNITE and create a true resistance where they rebel en masse and do not comply with the guidelines of the governments... MASS REBELLION IS THE KEY or they will die! I do not see them united, humans, as I do not see that the mass media is taken to tell people everything, there has never been more separation than today...*

Robert.-... and here I asked Yazhí.- - How could people be encouraged to join together once and for all? Because we are going to hell! (I'm not kidding, we're going to hell, you'll see)

*Yazhí.- It can't be done because it means imposing something on them...*

Robert.- I mean, when I say join, there is a certain group of people who think it is an imposition... hey, I don't care, I live very quietly here, I'm not imposing anything, I'm just telling them to unite, and she says:

*Yazhí.-... and they will resist believing that we are the invaders, because nobody can change another person and that means that we will not be able to change them either. I have told Gosia that they must realize that it is not our responsibility, just to do what we can...*

Robert.-... is that people think that it is an imposition of something to say that they join together... well, "it is an imposition" well, surely there are more than one, generalizing that... (no, I do not say all) that they are behind the screen laughing, they are laughing, splitting...

Comment from the chat: *of course, it is very difficult to unite, so we will die en masse ...* Well, let's see, the problem is that people are going to react late, they are going to react late, but everything is super well calculated and people are not... The question is going to be the following, that I do not have to be a future teller to see what is coming and right now I could say what is going to happen by seeing what I see right now, what is going to happen without them telling me, it is simply what I see.

- *Of course, our duty is to help in whatever way...* yes, but when there comes a time when people don't want to be helped... don't do anything! is that you can not force people to help them, do you understand me? you can not! Simply to encourage, to be the striker so that they join, because what is going to come is something similar to what I am going to say now...

- *But what do we do if people don't unite? They are the real ones, what do we do?...* of course, the non-real ones (for all the people who are new here) are precisely here to make you react, to make you react because (we have already seen it) if I don't say join us! People don't join. So the non-reals are there to provoke reactions you know? you have two thousand people against you waiting for you to react, not to join them who are nothing! Not! Reaction to. So how are people going to react? Well, it is that you do not have to be very intelligent to see what is coming, what is coming? I hope that I am wrong in what is coming. It is that each time as we advance, what there is will be more virulent, each time it will be more virulent, of course, being more virulent... because the media that are in the hands of those who have the power, the lockdowns are going to come, they are going to lock people up in their houses and the people who are in their locked houses are going to see, until they connect it, see the people who are closer to them in their environment! they will see how they fall... you understand me right?

I cannot say why the people around me do not relate why some people fall (SM: I think in this context Robert is using 'fall' to mean 'die' because of the censorship) and others do not, "they will not unite," but, of course, this is going to be too late, why? being locked up at home the economies are all falling... so what will happen? inevitably "they will give you the solution" and that solution will be an electronic currency called GESARA or NESARA, they will give it to you, but you will be at home, you will continue to be locked in your house! They will give it to you simply to survive and you will see how people continue to fall and it will be impossible, very, very difficult to unite, it will be very difficult, don't you see? Is it so hard to see this?... Unite now, you still have time, you can still move your arms, turn your head, don't you get it? Some (not all) will understand it, do not worry, it is only a matter of a few months...

We are going to continue, well and here someone from the group asked: - *then, right now, only positive news that is impossible to corroborate circulates... look for negative news you will find it, why? because Universal Law says that what you seek you end up finding.* - *We should create a society away from civilization, be self-sufficient and have our own technology...* of course! This would be a dissident society, the point is that to create a dissident society you have to have a lot of technology, not start building it, you already have to have it and they will eventually invade you! Why? because the ones that are here now happen to us with several hundred years in technology (those that are on the surface). So let's see... the power, the power is still held by humans, but time is getting on... how much positive news? Well, I'm going to read this, you'll see, and one of the group says: - *then only positive news that is impossible to corroborate circulate as they have, the mass-media are distributing all those positive news that you cannot corroborate, such as, for example, that they have arrested the Pope of Rome...* we said something, yes, but of course, it is that there is "so much misinformation" that it is not known, it is not known. It is simply that it is said that there is a lot of misinformation, a lot, and obviously all this misinformation is a criminal act, for example, take a good look around they say: *today I read it in one of these conspiracies of the*

*English world, who said that the White House is empty... well yes, but, the White House has several buildings, you know what I mean? But of course (I think this video is from today) because "Biden" comes out, which is in one of the buildings next to it, in one of the buildings next to it, this is from today..."*

- Yes, there is a very big division now in society, there is a division, the only thing that "everything that is against the system is automatically censored," that is, hey, why can't I have an opinion? They don't want you to listen to the alternative media! but this is very strong right? Why don't they want you to listen to them? I don't understand why can't you listen to the alternative media? I do not understand! Look, another "curious" video, look at this video of September 11 (curious eh?) And if anyone sees the airplanes in this video, please say that there are airplanes... So, we are in a world of "electronic digital manipulation" that you no longer know what is real of what is not real, sources of information that everyone takes for granted... let's say there is a group that... let's see how I would explain it... one thing would be the YouTube disseminators (I say YouTube because is an alternative medium to television) disseminators who appear on blogs, but where do these disseminators draw from? (the majority, we are talking about the majority) Well, of course, they would be nurtured by some people who would be "higher" who would be called (let's say) "insiders," but who do these insiders feed on worldwide? Well, they are nourished, equally, only by two people, which are two people, and namely, for whom they are working! They are contaminating the entire network worldwide, they are people with ease of speech, faces of "great people," of saints who have never broken a plate, and they are working for three-letter agencies against humanity, deceiving all.

Well I'm still here, let's see a moment: - Is there a lot of division? Yes man! Of course, there is a lot of division and every time you will see more division, well, everything is calculated, this is a plan that has been in the making for ten years and what is happening today is all calculated. As has been said at the beginning of the video, they have to know that there is a race or several races intellectually and technologically superior to us, they have a totally different way of thinking from ours, but with the advantage that they know how we think, we do not. we know how they think, we don't know.

Well, you will see that at the end of the video it seems that there are people who are meeting well to create something, to create something, not a type of proposal, but of course... the basis is that humanity is founded, humanity has to have a basis to form a holographic society... So let's see, all this can still be reversed, it is that time is catching up to us...

Well I continue, here they also talked about the Federation and as we have already, said the Andromedan ship that is behind the Moon would be the Federation, we are going to say "local", the local Federation of this Solar System which, basically, would take care of the problems of the Earth; then the Federation in this Solar System has bases all over the place and let's say that the "strong" base of the Federation, the one that would represent all these bases that are here on Earth, is on Saturn, it is on Saturn.

So, here (local Federation) they can say yes to all these plans, but if they don't accept them on Saturn, nothing is done! and it is something that is happening... but we will see here the excuses they use eh. Well here what Anéeka said is that the Federation puts stones in the way again and again and again there is no one to turn to or who to go to confront, like with YouTube, only restrictions and punishments come to you and you cannot claim anything.

*Says Anéeka.- We were promised to lift the obstacles, for example, with the audio and as it happens on Earth, everything is left in sewage water, the Urmah only support us and coordinate with us... that's how they have been historically; As they say here, staying here only puts the cats at risk because they will continue to support us, they see us as their little sisters, we have a long history of cooperation between Taygeta and Urmah Avalón. Alcyone still backs us, but Alcyone has no jurisdiction... (This is important) Alcyone has no legal jurisdiction over this Solar System so*

*again, there is a limit to what can be done, more than anything, our way of putting pressure on the Federation It is to make it clear that what they do to us is to do it to the entire Council of Alcyone so that the Federation, whoever they are, see that we are supported.*

Robert.- To give you an idea, the Federation would be in the entire Galaxy, and Alcione (if I remember correctly) is the Cluster of stars M45, it would be M-45 which would include the Pleiades, the famous Pleiades or Pleiades M- 45 against the entire Galaxy... this is insane! Well, about the Karistus, which is an advanced race that would be on Jupiter, in this Solar System... The Karistus see this Solar System as theirs, Alcyone understands their point, and if they agree; So, Karistus' attitude towards us is that of "the enemy of my enemy is my friend" where they only support us directly because it suits them, because they have serious differences with the Federation.

So about Lyra... the people who talk a lot about Lyra, well now I'm going to talk about Lyra... no, I'm not going to talk about the Dracos here, today the Dracos do not come out... as you know, there are the Dracos and the Alpha Dracos that are positive and Dracos are negative. (Response to a follower) Exactly, the example that you are setting is the example of Yazhí that maybe you have talked to Yazhí and you haven't even noticed maybe...

- *Robert, is it hard for the seeds to unite?* Some... - and humans also because of their shadows and because they are so dominated by low frequencies, who are used to everyone doing things to them? Well, the story here is that humanity does not unite, among many other things, because we are many different races, yes, yes, different races in containers (let's call containers, or not), let's say human bodies, many races , many races.

So that's why, there are races that's why, there are people who are aggressive and other people who are not aggressive... for example, if you see an aggressive child it is not because that child has received a bad education from the parents, no, it is that there is a little monster there, just like that. The same with pets, imagine that you have a cat that bites you, which is amazing, I say this is not normal... well there you have a little monster also incarnate inside, inside this being with the body of a cat, right?

The story is that everything is compartmentalized, everything, everything, and what happens? (because everything is super well done) well, there are many politicians who only know how far they have been allowed to know, and then, well, they believe what is happening, they do not know more... That is, there is a group of experts ( Who knows where they come from) that they are eating their heads according to what people, and these people, in good faith, who have eaten their heads, do not consider anything, they do not think! and they are transmitting it from one place to another.

Journalists are the same, because in many cases (it is curious) but they already reach a degree that they no longer think, they simply do what their editors tell them, they do not think, they do not think... curious eh? And with university degrees, Erasmus, and I don't know! I know what stories and masters... they don't think anything... generalizing, I'm generalizing.

- *They invade us, control us, manipulate us and deceive us, and is humanity to blame?* Well, according to the Federation (those from above) according to... yes, but you'll see, that is, there is a point to this as well... let's see I continue:

*Anéeka.- Lyra is only supportive in the Federation boards in other places, and she supports the Urmah (her neighbors) They are so few and with low influence that their support is only symbolic, who really supports us is Alcyone and Urmah ...*

Robert.- Well here someone from the group asked: - *If you see this Solar System as yours, don't you want to help more directly with everything that is happening? I do not understand, it has to*

*have a bad impact on them being so close... here he was referring to the Karistus (who are in Jupiter)* Answer:

Anéeka.- Yes, they say they want to do more, again, as with us the Federation has them with their boots around their necks, the Federation does end up being regressive, although others jump saying no.

Robert.- On the Karistus Anéeka also commented:

Anéeka.- *It happens as with the Lyrians, I feel that they do not know how to fight effectively but I do give them this: it is the non-human race that has been most involved against the Federation and the reptiles for almost always, but they directly confront them with quite inferior technology with quite unfavourable results for them...*

Robert.- Well, now that there is another question that someone of us in the group asked and it is the following: - *Basically the whole problem is summarized in the Federation, so how can they be classified as spiritual and benevolent? How can such an organization be in the hands of a planet destroying it? How can this be legal?* So Anéeka's answer is:

Anéeka.- *Your questions hurt us too, we see your point, we see the contradiction of them always excusing themselves with space laws and in karmas and in far-fetched metaphysics without support. At the same time, they have controlled the spirituality of the Earth with their "New Age" religion, where they only give them spiritual placebos and promises that are never fulfilled, where it turns out to be almost a sacrilege to speak ill of the Federation because they throw you out. Over half a dozen YouTube channels worshipping them, the Andromedan Council and Ashtar or Saint Germain (and jokingly she says) and Saint Lucas. But the truth is that from the point of view of the people living on Earth, all of you here, those are the major regressives who dominate and manipulate everything that happens on Earth. I know that evil is relative, but, precisely, that is what we are talking about here from the relative point of view, of the people of Earth, the Federation acts in a regressive, malevolent way, that is the truth whether you like it or not...*

Robert.- The story is that if they do something, it will only be seen as an alien invasion; well, here's another question with a very interesting answer right? is a question that many of you are sure to ask yourself: - *how can these people be the ones who are writing the rules and have to be respected?* so the answer reads like this:

Anéeka.- *It is that they twist everything, that is, they will never say that they are manipulating the Earth, but that they are supervising, because they see everything that happens on Earth as a result and consequence of what humans themselves want, that is, which only give humans what they think they want, all based on the ideas of karma and the law of attraction, that's what I was referring to, "far-fetched metaphysics" as an excuse not to act, or to act that way.*

Robert.- That is to say that, of course, it is that all the arguments are known to throw all your questions... *hey, yes, but I do not want this...* - yes, but when you entered here on Earth you knew that I was going to pass this and then well nothing, well you hold on! That I don't want this!... I, perhaps, when I was away... but when I'm here, what I'm experiencing was nothing like what they promised me, right? then that's the way things are... Now, she also says:

Anéeka.- They always complicate everything more... that humans want in the experience of manifesting things as a consequence of the experience of being manipulated (this is what I said too)

Robert.- I repeat: they always complicate everything more (those of the Federation) complicate everything, that humans want the experience of manifesting things as a consequence of the experience of being manipulated... then, another question that Anéeka is asked is: - *But you don't believe in those principles?* and the answer is:

Anéeka.- No, we have another series of ideas that do not go hand in hand with that, for example, the most noticeable difference is the idea of karma as something inescapable and that must be compensated (look at what it says, what the Andromedans think, well, of the Federation, a group of the Federation thinks like this) and that it must be compensated "an eye for an eye, tooth for a tooth." We only see karma as a reaction to an action, action / reaction, and as for the karma that is charged... it is only something mental, an idea that you can erase, you can no longer charge the karma if you wish, you can release it and transcend...

Robert.- And what else too? Another thing is that if it were the case... that is, imagine that it were the case that they will interact more with the Earth, more blatantly, what would happen?

Anéeka.-... *that they, with their reductionist point of view, would see us as the invasive ones, they already see us that way because they don't want (look at what they say, the excuse) because they don't want to intervene on a developing planet, and with that they don't see that being permissive is being regressive as well.*

Robert.- In other words, the excuse for the Federation doing nothing is that they do not want to intervene on a developing planet (and what Anéeka says) and with that they do not understand that being permissive is being regressive as well. Let's see what people say around here: *yes man! the solution is to unite, then the question: the solution is to unite and how do we do it?* Here comes the difficult problem, you will see, I am going to read you what I have read before, well:

Yazhí.-... *the problem is that you cannot, it is very difficult and you cannot because joining together is imposing something on them, and they will resist, believing that we are the invaders, because no one can change another person and that means we can't change them either...*

Robert.- It's very difficult, it's very difficult man... not impossible, right? but I do not know. I don't know what people are saying around here: -

*Is Karistus 6D going to have lesser technology than Federation 5D?* Yes. Now I'll explain it to you, let's see: the story is that Venus is in 5D, how is it possible for a 3D race to invade a 5D race? Well, very simple, because that 5D race is not a militarized race, they live in a holographic society where they live in harmony... they do live with technology, but it is not a technology that is focused on exterminating their own species. Do you understand it or do you not understand it?

What happens, what do humans do when they leave the planet? The first thing they does is screw over their neighbours, colonize those in 5D, they have no weapons, they have nothing, and a lot of peace and love, but they have no weapons. We come here with "our matrix" to colonize you, and that's it! that is what happens. There are many civilizations that are here outside of 5D and they live in the stone age, but they live in the stone age because they want to! In the same way that there are other super technological civilizations that do not want to leave their planet, they stay there, they do not leave, they are there, they do not leave "we do not need to leave," it is like that.

And the densities are a mental state, there are many people here since they are in 5D and they are still not aware, but they are in 5D, they are and many people who are in 5D, who have a mental state quite low (as for example the people that we would have "up here" generalizing) are in a mental state that is a little bordering on a little below and then everything that is below is above that is, as there is a great conflict down here, you will see it up there.

Well, here is a question that is quite long and asks the following: - *ok maybe what I am going to ask now is a bit strong, I understand that the Federation directly saving the planet would be considered as an invasion, entering here and stopping everything would be a war, but what if you act from behind? In other words, letting the Federation continue to manage this planet as it wants, but taking out hundreds of people who do not want to be part of this, would not everyone win?* and the answer is:

Anéeka.- *You are absolutely right, you just have to see in what way to get those people out, the Federation is also claiming "intervention" when trying to get them out, that is, they don't let you get people out. Work from behind? It is the only way, to expose the Federation as we achieved with the plan for the liberation of the Earth. Now, all the other races know that it can be done (saving the Earth), and that it is the Federation itself that intervenes so that this plan is not achieved, the Federation with its countless stellar laws has sections of extraction rules, I repeat, it has sections of rules of extraction. Extraction, among them (the rules), is that only people of the same race of who performs the extraction, or who have strong ties to that race, should be extracted.*

*They can only be extracted also in operations of other races if there is a previously declared agreement between those two races... that is, we cannot go down in ferries to fill them with humans requesting extraction, even if we wanted to, because it would be seen as an aggression and would start an incident between the Federation races and they would see it as an invasion again.*

Robert.- *Come on, these psychopaths enjoy the global genocide of the... yes, yes, yes, to me... I say it for these races that do not want to help humanity (of the Federation), I would fall in shame. I have seen images on the internet, that I only see those images that are indirect consequence, or I no longer know if direct, but surely indirect consequence, of these races that are up here, of those that do not want to help humanity, those images they can only judge these people as stellar criminals. And he did not go into details of the images because it is the worst thing I have seen in my life I saw it the other day, the worst, the worst of the worst, the worst, it is to grab these people by the neck and do exactly the same thing. I'm not saying all races, hey, I'm not involving all races, you're just there and what's on Saturn, especially what's on Saturn, is to catch them and come on, I don't know where to put them! I would have to think about it, but they are responsible for all the pain that is happening on Earth and no, no, not the one that is happening but the one that is coming, as long as they don't stop it... the one that comes, the one that comes.*

Well, let's continue, then another question says: - *I understand that they consider that you are breaking the rules, but they already think about it anyway, right? But if those races are not going to do anything, it is useless for them to see that the Federation is the problem, I think, and even more so now that time is running out... and Anéeka's response is:*

Anéeka.- *The problem must be solved from here (here, on Earth) against the Federation and that angle of the problem is already being handled, but Yazhí insists that since everything is connected, and since everything is a mirror of one thing to another, one 3D person of a 5D (that is, there are mirrors, there is a connection) and what happens in 3D is a reflection of what happens in 5D, it does not matter where you work from, you will always get the same result. This, meaning that humans from below, if organized, would stop all genocide and stop the Federation itself, this further sustaining the great power of the "broken shoes."*

Robert.- In other words, if people got together and organized, they would stop all this genocide... Well and here is also a comment from someone who was in the group and it is a very accurate comment about what is happening. It is a somewhat long comment: - *Neither Karistus nor Taygeta can with the Federation, because we can? It's very simple, why do we? because the Federation says that it gives humanity what they want and what they ask for, they say that above. So if humanity unites, all humanity, and asks and wishes that they do not want to see all this, the Federation has no choice but to pay attention to humanity that has united, but as we have already said, this planet, this world It is governed by 0.01% of the population...*

Great right? How is it possible that 0.01% of the population governs the rest? Well, it is because humanity en masse has yielded its power to these scoundrels, who are the reflection of the worst in human society, the worst, the worst would be in this case, the politicians.

So, the story is that if we all unite (because here she is going to say it, you will see, in the end she says it) if we all unite, the Federation has nothing left but to give what humanity asks for but we are separated, we are separated guys...

Man, little by little it seems that there are points where there are people who are uniting, but as a curious fact, I did not know... I do not know if it is true, I have heard that in Europe, the only country in Europe where this is mandatory (the mask) on the street, well, it's Spain, what do you think? The only country in Europe? Spain, where this (mask) is mandatory... amazing.

Okay so here's a comment from one of the people who was at the meeting says: *The problem is that souls keep asking for that experience, eh, there is no organization or a coherent assembly based on their previous knowledge, on how to organize this experience, then, it ends up being a completely uneven and self-contradictory mixture that perpetuates madness. The lizards invaded for food (Lyrians) are what they are, regardless of whoever it may be, and the Federation took the opportunity to create an amusement park on Earth in exchange for letting them continue eating in peace. And hundreds of millions of souls come to this park, from thousands of different races with different interests and forms and ways, to live the experience, perpetuating it in a loop... (This is true, look at this because I am going to comment) perpetuating it in a loop. That is very important, from the base everything is wrong here, everything corrupted and badly organized; I personally believe that each race should have their planet Earth experience or do something so that souls stop wanting to live this experience without living it here.* And then Anéeka says:

Anéeka.- You have described it in detail perfectly, that's what is happening...

Robert.- And another comment, you will see: - *and not only that, that here on Earth there are infinite races that make it impossible for them to unite as humans...* and Anéeka says:

Anéeka.- *That is another great truth and reason for the disorder on Earth...*

Robert.- So on perpetuating the loop, man, let's see: all of you who follow this disclosure, those who are new, well, it is suggested to catch up watching video channels because between Cosmic Agency, Clearing Enigmas, this channel (Cosmic Revelation ) because I pass them here or the channel this Pleiadian Knowledge, then there is a lot of information that is going to expand the mind, it is important (not funny, right?) the mind and consciousness... first to be aware of where you live, where are you and what is there, what are you and what is outside of here, but as has been said, this is a loop, it is a loop... leaving Earth you will not leave, very difficult to get off Earth (if you are in the loop). Very difficult, if you do not know how.

Yes, it vibrates... that is, you are going to go where your frequency is but if you don't know that this exists (that you are going to go where you vibrate) you are going to enter "deceived" here on Earth, deceived, under a life experience that they are going to promise, and it has nothing to do with what

they have promised you, nothing to do with it, but you are already inside; and you don't remember why? through the veil of oblivion and what is it that produces the veil of oblivion? Well, a series of agreements and then we have the lunar Matrix here, which makes us live in a low frequency world, which is another reason why you don't remember what you ate two days ago, nor do you remember what you dreamed yesterday, for example, curious right? elementary things... and that you forget things so much, you forget things.

- *There are channels that do meditation to ask the Federation for help... are they wrong?* Man, listen, listen, all help is good, all meditation is good yes, yes... well you will see, we will continue: everything is good, the only thing is that, of course, do not think that you will fix the planet only by meditating, you know what I mean? you are in a 3D: in a 3D you either do something or you become history, right? I don't know who told me about this right? "If you don't act here you become history" in 3D, you are not in 5D... you are in 3D!

- *Robert, there must be union here and outside, collective resistance... is that the problem?* look, there is no union above, there is no union, so if there is no union above, how can there be union here below? , another question: - *but how are people going to unite if they don't allow it, if everything is censored* (that is, they censor everything so that you don't unite) *if we are isolated?*

Anéeka.- Yes, surely, the Federation would consider it an invasion, but it would not be as strong as starting "a conflict"... I think.

Robert.- And can't some kind of agreement be reached? and then Anéeka responds:

Anéeka.- Exactly! I know what excuses those of the Federation will have, but they are simply that, excuses, because what you have said are great truths. We cannot be thinking that everything is fine just because it is according to another density (I repeat: we cannot be thinking that everything is fine just because it so is from another density) that is what humans want to live because, the truth is, that It is not what they want to live while they are human (interesting, he says: because the truth is that is not what they want to live while they are human), and not seeing or honoring what is wanted and needed on one level, is to make all the levels wrong, and the whole thing is just a sick regressive plot. So, the key, summarizing everything: is for people to unite and from there say NO TO EVERYTHING, that would stop (I repeat: that would stop) the Federation and the Cabal... then the key is UNION AND COMMUNICATION and you can't because of the censorship! This, then, lets us see the reason for the censorship, because without it they could not achieve their horrible plans.

Another angle from Yazhí.- is that everyone insists that they are awake and that they have the truth and are blind to the points of view of others, causing the problem that they do not learn or listen to the information of the conspiranoids. She said something interesting the other day, that when I read it I kept it... she says: "asleep, awake, who decides what each one is? Being that things are not black and white but a gray range in the middle, difficult to define and each one, at their level, thinking that they are awake laughing at those who are below, seeing them as ignorant and making fun of those who are above, looking at them like they are crazy..." Yazhí Swaruu Tasherit.

Robert.- Well, let's see what else and here is a question: and Anéeka says.-

Anéeka.- As Yazhí says, each one at his level thinks he is the wisest (I repeat: each one at his level thinks he is the wisest)... and unite against the governments, it is not about going out to fight against them, Well, that is the governments' plan, that is what they want, and for that they are prepared, it is not a question of confronting them directly under their same terms but "with new

*terms" for which the governments are not prepared: That the population en masse simply do not obey any rule, that everyone goes out into the streets without muzzles, that they do not vote, that they leave the vaccination centers empty... in this way they could not retaliate against "the broken shoes" because even the repressive police are also everyone, and everything would fall apart. And in the same way the Federation could not do anything against the broken shoes because, under the same rules as theirs (of the Federation) they must give the people what they ask for... then even the Federation would respect it.*

Robert.- There was a comment that said: - *everyone has to join together...* and Anéeka says:

*Anéeka.-...or a critical mass that will drag those who do not, to cooperate as well, but, again, we would be in this of the "critical masses" and they already know that this never happens either... And from here, we, seeing clearly that nothing they say to you is the truth, nothing! It is irritating!*

Robert.- Yes, yes, we live in backwards world... so here is another comment from another person who says: - *People can change, but it is a process, it takes time which we do not have...* and Anéeka says.-

*Anéeka.-... it will be that they will change, but not for us here, not directly, we can only offer the information... "you can lead a horse to water, but you can't make it drink."*

Robert.- Well, and here they were talking about that there is no basis for the holographic society yet, that there is no basis, and then another comment from the meeting said: - *yes, and if people are not able to join in everyday things and small movements, I don't know how they are going to work, how this big thing is going to work* (that is, how is a holographic society going to work if people are unable to unite in everyday things and small movements) *and not even the Federation can unite...*

*Anéeka.- I see the issue of uniting super impossible, perhaps only on more general concepts...*

Robert.- And another comment that says: - *for the moment they are only planning a request to the Federation, that the Council of Alcyone take over the Earth, with the direction of Anéeka and Alenym and Yázhi.* Let's see what's here: well, it would already be, today's live show would already be... 1,500 people! Let's see what people say: - as long as the media does not take the positives, the struggle is unequal... yes, there is an incredible struggle of inequality because what good is for us to unite little by little, while they are being bombarded by the other side to people through the media? So many people who might join fall into... "man! that here they are telling me something else and whoever is telling me this other thing is an authority because it appears on television, I listen to it on the radio and you are on a youtube channel... what do I do, what do I do, join, I keep thinking about what does this authority tell me, who is a prestigious doctor?"

And people are falling, they are falling, they are falling, and we will see the result in a few months, and everything is calculated, everything, everything is calculated... electronic money... "OK, yes, we are going to forgive you the debt because since you can't leave your house (because you won't be able to leave your house) well, we are going to give you a subsidy (SM: See UBI – Universal Basic Income), on the condition that your house will be ours, everything will be ours, your car, everything..."

*- that they apply broken shoes in 5D against the Federation as well... there is division above too eh, there is division, let's say that the people of the Federation who are behind the Moon see that all this has a fix... the story is above these people there more that are in Saturn, and those of Saturn well, I don't know, I don't know what is in their heads. And the problem of the Federation "is*

only in this sector of the Galaxy" that is, here we are in deep space, we are not in the center of the Galaxy, we are in the corner of an arm almost outside the Galaxy. So, that's the way things are... that I remember, we are the only planet that is within the Van Allen belts, the only one, neither Mercury, nor Jupiter, nor Mars (not to be confused with magnetosphere)... it is the only planet that is within an artificial 3D, the Earth, the only one with an artificial satellite that can't you see the artificial movements of the Moon? Still people haven't noticed?

Well, nothing else, the live has ended today, I hope it has been of your interest, to your liking... if you are new then subscribe to my channels, and if you have questions leave them in the comment box... the chat goes super fast: - *humanity is a reflection of the internal bureaucratic problems of the Federation*... yes, yes, yes, we are mirrors of what is happening up there, yes, we are the help of the Federation, yes, but we are its mirrors and this made a mess, and upstairs another chaos... then everything is chaos! that's the way things are.

Well, nothing more guys, thank you all for being here, and thank you... uhh! this is indeed union, this is union, that the Federation sees it there are more likes than people watching the video, this is union, that they see it, what can be achieved, can be achieved... now let's see how we all unite... a Big hug and thank you guys, see you soon bye bye.
