

# MEETING IN THE FOREST - DISCUSSING FEDERATION ISSUES WITH ROBERT

Agencia Cosmica

July 2, 2021

Video URL: <https://youtu.be/-WYngZREAqc>

Robert is visiting and we are exploring the terrain. By the way, we have decided to record this impromptu meeting commenting on latest topics and videos. Greetings everyone!

## BEGINNING OF THE MEETING

Gosia.- Hello friends of Cosmic Agency! Many mosquitoes, (the mosquitoes are frightened) I'm Gosia, and here's Robert.

Robert.- I'm Robert from the channel Despejando Enigmas! How are you freinds?

Gosia.- Not only from Despejando Enigmas ...

Robert.- Yes, and a few more channels, yes.

Gosia.- Yes because I always said that you were from Despejando Enigmas, but now you also have other channels that are important and I have added them in my description below each video.

Robert.- Thank you very much, thank you very much.

Gosia.- You're welcome. Well this is a small gathering. As you know, we no longer do social gatherings, we are no longer close by and we cannot make videos together, but from time to time, as like now at this moment, as I know you like these small gatherings, since Robert visited me for the first time in a long time, we have decided to go out and get to know the area a little more. It's almost one at night. (Robert looks at the clock)

Robert.- It's half past twelve.

Gosia.- And look, there is no night, there is no night. This is the maximum darkness that we are going to have today and... Well Robert, what would you like to talk about in this little gathering? It is totally improvised.

Robert.- Well, I don't know, let's see... For example, of the last songs that I'm playing? What would they be ... I have been talking about immersion chambers, how you project yourself from an immersion chamber here on Earth, and on the subject of the Federation, in which there are many extraterrestrials that are projected on Earth through the immersion chambers right? And that everyone is a starseed, just the real people? There are things that don't ...

Gosia.- Starseeds are all the people on Earth who are real, no matter the mode of entry, but there is a curious detail here to mention that Swarúu X has told us, that more or less since 2017 Taygetans no longer enter on Earth. This was before, but more or less in the time of 2017 the entrances of the Taygetean souls have already been reduced enough, in immersion or whatever. Well, the topic of the Federation is huge and this is made up of many parts and many videos, because this topic is very large. Anyone who only listens to a fragment and later with this (small) information is mounting movies based on this piece of information, in my opinion they are not doing it well, because you have to see all the videos and all the information and all the context to understand well what we are transmitting, because we never say that the entire Federation is corrupt or evil, but we also do not say that it is good. Because there are aspects on both sides, you have to analyze it well and not judge in this way or another, because this is very reductionist, very simple to put this issue at that level. Lots of people are doing it! Even in the UFO world. But ... (Looks at Robert).

Robert.- Well, of course, in the world of ufology, with all due respect, I have?

Gosia.- Well ... (Laughs) Robert.- I think that when people talk about the Federation, I think they speak without knowledge of the facts, insofar as they do not know the reality of the things that are happening here on Earth. What I really liked is the example of Yázhi who names Mason. (Robert looks at Gosia). Yes, Mason.

Robert.- Imagine that you are playing a Vietnam war video game, and the character you are playing with is called Mason. He is suffering, he is fighting, and while you are playing, you stop playing the game and you can go quietly to the fridge to get yourself a fruit smoothie while Mason is being tortured, and then you go back and continue to see how Mason's torture goes. The story here is that the Federation listens to who is playing and not to the player (the character of the video game). I really liked that.

Gosia.- Yes, with this example the perspective of the Federation is well understood, or should be better understood, because according to this vision things are like that, and that is why their ethics

change, because that is important. Depending on the level of understanding, the perspective of your ethics also changes, so what to us here, from the incarnated side, seems unethical, and it is! It is! That is Yázhí's point, which is unethical from this point of view, but from the point of view as they perceive it there (the Federation) it is totally legal, totally correct and totally ethical. And that's why this is a dilemma, for example, let's talk about a concrete example. I'm not going to say who it is, but we have had the case of a person who is immersed here, and that on his pod (immersion) there are instructions, and those instructions say: DO NOT EXTRACT ME UNDER ANY CIRCUMSTANCES. I WANT TO COMPLETE MY LIFE CYCLE. The same person from here (from Earth) wants to be extracted. The ethical dilemma is what to do? The Taygetean team is faced with this dilemma. What to do, respect the desire and the will of this equivalent of yours in 5D before incarnating, or the desire within 3D? (Looks at Robert and asks: What would you do?)

Robert.- Of course, the story is that this person from the immersion pod has projected this life here on Earth ...

Gosia.- Yes, he has!

Robert.- Sure, what do we do, we break the incarnation of this person because right now he says he wants to leave?

Gosia.- Exactly!

Robert.- Or... does suffering justify the acquired knowledge? Gosia, those are the "dilemmas" between the "so called" 3D and 5D. "So called" to call it something, but as we already know there are no densities. (Looks at Robert) Yes! Who are we going to listen to here? Because in the pod it says it clearly, and that in a real case, we are not inventing it (She looks at Robert and asks him: Do you know who I'm talking about?)

Robert.- Yes.

Gosia.- The pod clearly says: DO NOT EXTRACT ME UNDER ANY CIRCUMSTANCES ... Surely this person already knew before entering that he was going to suffer, that he would have a difficult life ...

Robert.- It is that through suffering he is learning, then... Let's see, it is something that you have chosen before entering here. The only thing is that having the veil of oblivion and all that, you do not remember.

Gosia.- If I see that people have problems with this that we come here voluntarily ... (Gosia imposes the voice) "It is that no, surely not ... that there are some traps that are forcing us to incarnate ..." Yázhí has said it very clearly, there is no archon trap, nobody forces you to reincarnate, you do it voluntarily. Yes there is manipulation, and through this manipulation you think you have to go back. It is still your decision.

Robert.- (Asks Gosia) And then what do you think of ... Sure! Yes it is true ... Everything is true, but something else happens here, that you are the creator of "reality", let's say this is what you are living, you are the creator. The problem is that there is something that you have created that makes you believe this something you have created. So this that you have created, that we say that you have created it, is guiding you to believe for him, not for yourself. (Looks at Gosia) Something like

that. Not? (Gosia looks at the ground as if thinking on what Robert has said). They are guiding your creation, your perception through the media. (Looks at Gosia)

Gosia.- Yes, yes.

Robert.- Then of course, if you don't wake up, you follow the herd, the sheep-Matrix, right?

Gosia.- Yes, but even so, this person, knowing that this is going to happen, decided, and was very determined for that, that in his immersion pod he said: DO NOT EXTRACT ME UNDER ANY CIRCUMSTANCES!

Robert.- But now what do we do?

Gosia.- But now he wants to go out, what are they doing now?

Robert.- And he wants to go out a lot, wants, wants.

Gosia.- Another thing, there is another question of why they do not want to remove that person, because apparently they have already done so, and this person got angry and went (immersed himself) again. He reinstalled the immersion program to do it again, and put it on his pod. DO NOT EXTRACT ME! And now here he is suffering and he wants to get out, and he is saying: I don't want to live this! So here there are many ethical dilemmas, of which we are not realizing, and from there back it is seen more, in a more expanded way. So it is not so easy to judge and assess this whole situation of the Federation, but having said this, Yázhi and the Taygetans remain unconvinced because they think that the Federation is not ethical, because they are excessively invalidating the experience of these "players" on Earth, because I understand that it is a game, yes, because it is, and we have chosen that experience, many times before entering, although there are variants that can be applied here, but the Federation that is composed of non-empathic races, are invalidating this experience too much here. This experience is real, you have to take into account what the player is suffering and what the player is going through, and they do not consider it in the way we would like.

Robert.- Well, of course, the Federation also thinks that as it is a short experience, in relation ... (Robert looks at Gosia and points to his right ear warning him of that strange sound similar to a long wail that comes from the forest. Minute 11.03) ... what you live, well ... look, as it is something short, and apart from how has the logical mind ...

Gosia.- But here is another point, which someone has also said in the comments, because I also said this: If it is only a short incarnation, 80 years or whatever and you leave ... But what about the souls that continue to incarnate? That is no longer so short, that is already spreading, because this experience somehow catches you, because you do not know there is more, because of these limits by design ...

Robert.- They are trapped by the Matrix.

Gosia.- Yes, in this terrestrial loop. It's not just 80 years anymore, but you come back, and you come back, and you come back ... and centuries are gone.

Robert.- They get trapped by ideas. By staying "stuck" to ideas, because you don't stop being an idea, you stay stuck here ...

Gosia.- Yes and I think that the Federation loses sight of this experience (it does not take it into account). You go to the fridge to see what is there. This experience absorbs you so much and these ideas of being inside stick to you that make you return and return ...

Robert.- It's complicated, it's complicated ...

Gosia.- It's complicated, that's why I told you when you asked me live what do you think of the Federation? This is not answered with two sentences, it is very complicated. We continue to explain in the videos about the Federation, there will be more topics, in fact in part three, part three on my channel, because you (Robert) divide it differently. Part three on my channel will be about this, about the CIA, and how the CIA infiltrates the ufological field. That's very important, (Robert laughs) because we have no idea what level of control the CIA has in the UFO world. And because? Because that's where people are waking up and asking questions, then that's where they especially want to infiltrate and manipulate. Swarúu told me: "You have no idea of the degree of infiltration."

Robert.- Let's see, the fact is that the Pentagon has just declassified the UAV (*Unmanned Aerial Vehicle, which is rendered in Spanish as the air vehicle that does not carry crew - Note of transcriber*).

Gosia.- What did they say?

Robert.- All the organizations come out except the CIA. I haven't seen the CIA. I said: Good! The FBI comes out, many come out ...

Gosia.- But let's see Robert, because I was looking for this information ...

Robert.- It's a PDF, I have the PDF.

Gosia.- What does that document say?

Robert.- Inside the PDF they say that ... let's see, the document they have made is not a document about extraterrestrial life, nor about extraterrestrial spacecraft, it is simply about UFO phenomena, unknown atmospheric phenomena ...

Gosia.- But what is that?

Robert.- From failures in the radar, birds, balloons ... technology from other countries ...

Gosia.- But are they admitting that they could be ...

Robert.- Aliens? Nerd.

Gosia.- Don't they say this? So what kind of report? ... They don't even say that!

Robert.- It is disappointing and it is true that... well, we have noticed this at the beginning that we went out. It is an absurd attack from where it comes, but returning to the subject of the Pentagon declassification project, I have been listening to several ufologists, researchers and you see that they are the Matrix, why? Because above they say that it is the best ... that is, absurd things. In

other words, the world of ufology as it is today is never going to reveal anything, nothing! Not the agencies. Because you know, to reveal the phenomenon or the existence of extraterrestrial life is to bring down civilization. You knock everything down, the economic, political, religious system, all of it.

Gosia.- Well, and this is what the Federation itself does not want, it does not want the structure and nature of this Matrix to be changed much.

Robert.- So one thing, do you think the Federation wants people to ascend?

Gosia.- The whole thing about the ascension has not come from the aliens, I think it has come from the lowest levels. Ascension! But what does this mean? They, as Swarúu X told you when you asked if she thinks that human civilization will be interstellar, what did Swarúu X say? No! That it won't be interstellar the way humans imagine it, the way they wanted it, because this goes against how they (the Federation) want to keep the field.

Robert.- Let's understand something: If you want to have an experience in 5D, you do not incarnate yourself on Earth.

Gosia.- Exactly!

Robert.- Besides that, you are not this body, you are already in 5D. Another thing: If you cannot be 5D either because you are already in 5D, and for your experience you do not have to live on Earth, you cannot live an interstellar experience in this 3D either, because if not, you would not be incarnated on Earth, you would be on the other side. You are here on Earth, incarnated to live a short, limited and chaotic life.

Gosia.- (Laughs) Well, yes, exactly. And also mention that Yázhi and Swarúu already like these terms of 3D and 5D. It is not this either, and we are using it to understand each other, but it is not this. It is simply the Earth, the Matrix, what is outside, because 5D-3D can be from anywhere. You can be here and be very high density, but you are still in the "soup" of the Matrix.

Robert. That is, you have a high frequency because you have ideas and a higher than average thought, but you are still in this reality that surrounds you.

Gosia.- Exactly, and vice versa, you can be outside the Earth, but for ideas you can be of the lowest frequency, regressive ideas ... So this does not depend on the place, it depends on your mind, your perception. Ok Robert, thank you very much for your company!

Robert. You're welcome, it's full of mosquitoes! You cannot even imagine it. *(In fact during the whole live they are seen flying around them and in front of the camera. Note from transcriber)*

Gosia.- Thank you very much and see you in the following videos.

Robert.- See you soon Ciao, Ciao!

Gosia.- Bye... (Both wave their hands saying goodbye)
